**INFORMATION DISCLOSURE STATEMENT**

Dear Examiner:

Pursuant to 37 C.F.R. §1.97, as revised on February 4, 1992, 1135 OG 23-24, Applicants hereby call the Examiner's attention to documents listed on the attached form, which documents may be material to the examination of this application.

No inference should be drawn that any apparatus disclosed is equivalent to the subject invention. Also, the citation of the above-discussed document is not to be construed as an assertion that more pertinent art could not possibly be in existence. Citation of any document herein is not to be

construed as an admission that any subject matter disclosed in the document is necessarily within the inventive field of endeavor, that any disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that any disclosure is otherwise necessarily prior art with respect to the instant invention.

Enclosed with this Information Disclosure Statement are references cited by Applicants and/or the Office in U.S. Patent Application Serial No. 09/997,822, filed November 30, 2001, which is a divisional of the present application. One of the patents enclosed herewith is U.S. Patent No. 6,099,734 which names the inventors of the present invention and others as inventors of record. The '734 patent is assigned to the Assignee of the present application and the Cerus Corporation of Concord, California. It has the same filing date and shares a common disclosure with the present application.

The '734 patent was previously called to the attention of the Examiner in the present application (see the Amendment of August 15, 2000), but not formally cited in an Information Disclosure Statement. Applicants now request that this patent and the other patents included herewith be made of record in this application.

Applicants also respectfully reserve the right to later set forth how the instant invention is distinguished over the

disclosure of any document or other art, including the disclosure of those documents discussed herein, that may be cited by the Examiner in rejecting a claim in the present patent application.

This Information Disclosure Statement is being filed simultaneously with the filing of a Request for Continued Examination. Accordingly, it is believed that no fee under 37 CFR 1.97(c) is required. If it is determined that a fee is required for this Information Disclosure Statement, please charge our Deposit Account No. 50/1039.

Respectfully submitted,

Andrew G. Kolomayets
